# Weather Key Points

Regional Operations Center

Western Region

Tuesday, August 16

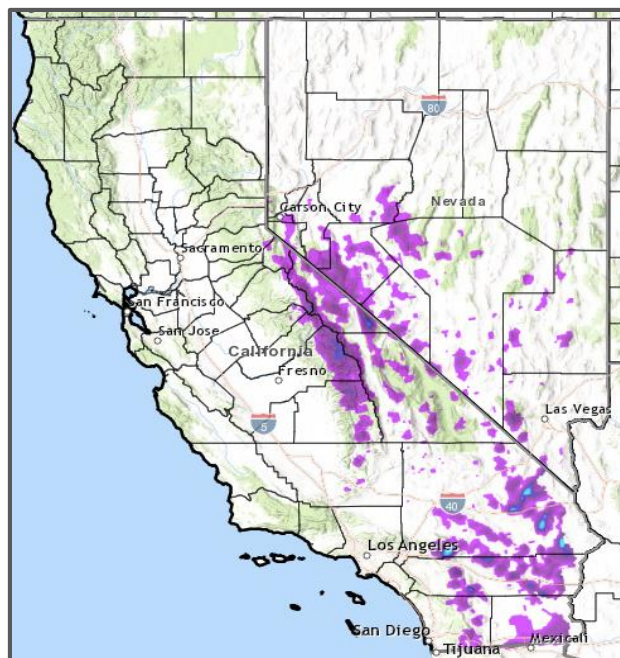

- Temperatures will see a warming trend for most areas today, including coastal locations, with moderate to locally high heat risk impacts likely. Coastal areas will see cooler conditions return Wednesday through Saturday, while moderate to locally high heat risk impacts persist for many inland areas.
  - Overnight lows will remain quite warm in the 60s and 70s in many locations as well, increasing the risk for heat-related impacts
- Daily scattered showers and thunderstorms will continue across the southern mountains and deserts through the weekend
  - Additional scattered thunderstorms are expected along and east of the Sierra and across far northern California Tuesday through Friday
  - Some storms will be capable of producing locally heavy rainfall that may lead to flash flooding
  - Coverage of rainfall may also increase across portions of southeast California Friday and Saturday
- Scattered thunderstorms with dry lightning will bring increased fire weather concerns across the far northern California mountains and valleys for mid to late week, particularly Wednesday and Thursday. Outside of those areas, fire weather conditions will remain elevated most afternoons across the mountains and foothills, away from any rainfall.

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

### 2022 May Monkeypox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) has activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Monkeypox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

### Cal ISO Flex Alert 08/17/2022

The California Independent System Operator (ISO) is issuing a statewide Flex Alert, a call for voluntary electricity conservation, for tomorrow 08/17/2022 from 1600 to 2100, due to predicted high temperatures pushing up energy demand and tightening available power supplies.

### Situation Cell Activation

- The Cal OES Situation Cell is activated to an Enhanced Watch posture for incident reporting on the McKinney Fire.

### Cal OES INLAND REGION

- Please see Fire Activity slides.
- Please see attached Situation Cell Incident Report for the McKinney Fire in Siskiyou County.

### Debris Flows and Flooding, Alpine County

On 08/03/22, a torrential rainstorm caused flash flooding and debris flows in Alpine County near Markleeville and over the Tamarack and Slink Fire burn scars. Cal OES IDO and Inland Region Senior ESC assigned to Alpine County are monitoring and supporting.

- SR 89 is closed from Turtle Rock Park to Montgomery Street in Markleeville due to a portion of the road washed out. ETA for re-opening is approximately 08/19/22.
  - Water has receded but there is a +12-foot section of road that has washed out/been damaged.
- Local community traffic will be allowed over the emergency access road twice daily for 30 minutes at 0700 and 1800, escorted by Alpine SO.

### Activations

- Alpine County Emergency Operations Center is activated at Level 2

# **SITUATION SUMMARY**
